

Welcome to the June edition of the Charlottetown Amateur Radio Club Newsletter! We'll try to keep you up-to-date with what's happening this month and any future events we're planning or are aware of. This newsletter is automatically distributed to club members, prospective future students who have reached out to us in the last year, and other interested amateur operators in the region. If you do not wish to receive these monthly newsletters, let us know and we can remove you from our distribution list. Alternatively, if you are not included on the mailing list, but would like to receive a copy of our newsletter, please reach out to our secretary.

#### **June Club Meeting - June 4th, Stratford Town Center**

June has arrived and with it the most beautiful time of the year. Our next monthly meeting is coming up next Tuesday, June 4th, at 7:00 P.M. Everyone is welcome to attend. If you're a licensed radio operator and would like to become a member, or you're perhaps interested in becoming licensed and would like to find out more about us and the hobby, then please come and join us. We would love to meet you. For anyone who would like to become a member, membership dues are \$30 for 2024 for those who are not currently members of the Radio Amateurs of Canada (RAC). For RAC members, it's \$20 for the year. Our students and graduates from the fall 2023 and spring 2024 classes are automatically members of the club. Our meetings run from 7:00 P.M. to 9:00 P.M. (1900-2100) in the Southport room at the Stratford Town Center on Shakespeare Drive. Alongside monthly club reports we usually enjoy an information exchange. Over the last year, we've learned about a broad range of topics such as alternate power options for radio operations, 3D printing, SDRs, HF antennas in the field, Parks on the Air Activations, contesting, and how to save on custom fees.

#### **Five new hams (so far!)**

We have five new hams in our area from the Spring 2024 class, who wrote their exams in the last couple of weeks. They are:

Rod Gallant VY2UA

Courtney Lawson VY2ON

Ryan Townshend VY2YZ

Mike Lafortune TBA

Sam Alhakeem TBA

And our other two students will write their exams when back in town from out-of-country travel.

Thanks to all of our instructors and support personnel for another great class!

### Fall 2024 class?

We have 7 prospective students for Fall 2024 already, and interest continues to roll in. If you or anyone you know is interested in our next basic radio course, then please reach out to Brent VY2HF or email us at the address at the bottom of this newsletter.
